5A

FIFTH AVENUE

5A replaces millennial pink this season with statement golds and monochrome throughout. Introducing leopard markings with their iconic style and geometric prints to help carry on the glamorous Art Deco style.

AUBURN

Inspired by the catwalk, Auburn is a glamorous take on a traditional autumnal story. A warm palette of rich claret, red and rust are highlighted with metallic gold foil for a contemporary finish. Metallic cushions are paired with pinched velvets and warm, marquetry patterned furniture.

HOMESTEAD

A contemporary take on vintage brings the Homestead story to life, sheepskin rugs are combined with pale oak wood to create a warm, homely feel. A delicate colour palette of pink and grey is complemented with dried flowers and lace inspired glass.

ZEN

Rustic Japanese influences flow through our contemporary, casual story. A clean, simple palette of black, white and indigo is highlighted by lush greens and fresh blues. Watercolour prints are seen throughout and are complemented by natural materials and accessories that are inspired by nature.
